NAVY Declassification/Release Instructions on File

BAR El Segundo speedletter A6 5(1) (7973) (70:DAC) of 23 July 1957 states that the preliminary estimated cost of an additional 1/10 scale electronics model of an A3D is \$9,750. Because of cost consideration, the additional model will not be procured. The existing model will be shipped to the Lincoln Laboratory for special tests when required. It is estimated that the total time the model will be unavailable to the contractor will be ten weeks. Shipping instructions will be forwarded at a later date.
